DT STUDIO

Horizon, la collezione di lampade da interno ispirata alla fusione tra mare e cielo. L'accostamento di più lampade a sospensione crea suggestive cascate luminose. La disponibilità di tre lunghezze di cavo e di diverse tipologie di accessori consente la creazione di soluzioni luminose completamente personalizzabili. *Horizon is the collection of indoor lamps inspired by the fusion of sea and sky. The combination of multiple pendant lamps creates enchanting luminous cascades. The availability of three cable lengths and various accessory options allows for completely customizable lighting solutions.*

Rosoni singoli

Single Canopy

Due varianti di rosone singoli che soddisfano diverse esigenze di installazione e di stile. Il rosone singolo standard, oltre a essere adatto per l'installazione a soffitto consente, in combinazione con l'accessorio fermacavo, di trasformare un punto luce a parete in una comoda sospensione (vedi esempi 1 e 2).

Per coloro che cercano un design minimale, proponiamo il nuovo rosone da incasso che, con la sua forma ad imbuto, garantisce un'estetica pulita ed essenziale.

We offer two different single canopies that meet the various installation and style needs. The standard single canopy, besides being suitable for ceiling installation, allows, in combination with the fairlead for cable accessory, to transform a wall light point into a pendant (see examples 1 and 2). For those seeking a ceiling rose with a minimal design, we propose the new recessed ceiling rose which, with its funnel-shaped form, ensures a clean and essential aesthetic.

Rosoni multipli

Multiple Canopy

I nostri rosoni multipli rappresentano la soluzione ideale per gestire più cavi di sospensioni, collegate in serie, tramite un unico rosone. Una valida proposta per illuminare spazi caratterizzati da soffitti irregolari o architetture insolite che richiedono soluzioni creative di installazione. Our multiple canopies represent the ideal solution for managing multiple pendants cables, connected in series, through a single canopy. A valid proposal for illuminating spaces characterized by irregular ceilings or unusual architectures that require creative installation solutions.
